

Excellent first six months – EBIT and bottom line more than tripled, EPRA NAV rockets to over 24 Euros, FFO I steeply up +13%, Rating up to Buy, Target up to € 24.00

Today, S IMMO released the 1H 2019 report and invited for a conference call in the afternoon to explain strategy and numbers.

The numbers have been excellent in all key performance indicators. That speaks a clear language for a prudent cycle management to buy and develop or sell the right things at the right time.

The total revenues were up 11%, from Euro 91m to Euro 101m. The rental income was even up 15% from Euro 50m to Euro 58m. We also welcome the decent 11% hike in the hotel revenues of the first six months, after they already steeply increased +19% in 2018.

With regards to the FFO I, the picture was also impressive, with a steep 13% increase from Euro 34.4m to Euro 39.0m. With regards to the P & L, the operating EBIT profit more than tripled from Euro 54m to more than Euro 173m. This result was supported by a very good revaluation result of Euro 134m (1H 2018: Euro 19m) coming from the prosperous German market (70%) but also some mark-ups in Austria (10%) and CEE (20%).

The good revenues situation and the mark-ups in valuation are a part of the story. The admin expenses are more or less unchanged at only slightly above Euro 9m. The Cost of Funding without the bonds remained on a low 2.26% level (after 2.28% in 1Q and in 2018). All in all, the excellent KPIs helped to more than triple the bottom line as well the EBIT. The net profit after minorities was up to Euro 148m, after Euro 48m in the previous year.

With regards to the portfolio size, it rocketed from Euro 2.12bn at year-end 2018 to Euro 2.30bn in only 6 months, a Plus of 8.5%, due to some transactions, primarily in the German market, for instance B cities like Leipzig, Halle, Kiel and the capital of the German state of Thuringia, Erfurt, where the company managed to acquire 33 properties in the last 18 months, mainly residential but also 2 office properties, recently. To sum it up, S IMMO strives for a critical mass in some promising German B cities with a growing population and a positive economic forecast as the Berlin market shows a steady trend of declining yields which makes it quite unattractive for some transactions in the future. But even with regards to Berlin, S IMMO already acquired about 1 million sqm in the Berlin surrounding area for future developments. With regards to CEE, the company already acquired land plots in Bucharest and Budapest as the company is positive for a quite prosperous market development there and we share this opinion.

With the very positive picture of 1H numbers, we lift our P & L and dividend forecasts and also lift our target price from Euro 22.50 to Euro 24.00, which is backed by the EPRA-NAV per share, which increased 14% in only six months to Euro 24.27 (Dec. 2018: Euro 21.25). The S IMMO share price development was very strong in the first six months. It rocketed +33.4% year-to-date, being the best ATX stock. As we expect the good development to continue, we now also lift our rating from Accumulate to Buy.

(Andreas.Feuerstein@simmoag.at)			

S IMMO is a Vienna-based real estate holding company founded in 1986. Since 1987 the company is listed on the Vienna stock exchange and therefore Austria's longest existing property investment company. The share is member of ATX blue chip index since September 2017. Expansion activities to foreign countries were started close to the millenium. Within recent years the company acquired, according to its Buy and Develop and Hold strategy, a real estate portfolio that comprises about 300 properties, a lettable space of more than 1,200k sqm amounting to a value of more than Euro 2.3bn at June 2019 (+8.5% compared to year-end 2018). In average, investments have a volume of a lower double digit million. The portfolio contains a widely diversified range of office, business and hotel properties as well as residential properties selected for a sustainable value growth. All in all, commercial properties have a high 71% weighting and residential have 29%. S IMMO aims on a long investment horizon but also strongly exploits opportunities for trading in these low yielding times - as done in a bigger magnitude in 2016 and 2017, in particular in Germany and Austria. In terms of portfolio value a large share of 47% is located in Germany (about Euro 1.1bn). Austria stands for 21% (approx. Euro 0.5bn) while CEE stands for the remaining 32% (Euro 0.7bn) of the total portfolio value of Euro 2.3bn (1H 2019). The current rental yield is still at high 5.5% at 1H 2019 (5.7% at year-end 2018), even after the significant property mark-ups this is not too aggressive, in our view. In 2018, the high occupancy of 94.8% in 2017 came even further up to 95.8% and was almost unchanged at 95.6% at 1H 2019. The company released its 2018 annual report on 3 April and presented the best year in history with a net profit after minorities surpassing the Euro 200m threshold and an FFO I surpassing the Euro 60m threshold. For 2018 the dividend was strongly lifted from 40 Cents to 70 Cents, meaning a payout ratio of clearly more than 70% of FFO cash earnings. The 1H 2019 FFO I was again up 13% to Euro 39m.

Value of portfolio by region

(Euro 2.1bn at FY 2018)

Source: Company data (FY 2018)

In addition to a stable Hold portfolio, the company has just finished or will soon finish some promising development activities in Berlin (Leuchtenfabrik) as well as in Vienna (Quartier Belvedere Central) and Bucharest (The Mark office was recently completed in 1Q 2019) as well as Bratislava (Einsteinova completed in 4Q 2018). The lion's share of the company's historical development activity was done in Austria and CEE. Hence, a significant share of already finished properties (like Sun shopping mall in Bucharest), held within the CEE portfolio, results from own developments. The core shareholder is Immofinanz with a 29% stake. The other way round S IMMO holds a 12% stake in Immofinanz.

The company aimed to lift FFO I to more than Euro 40m until 2018 and already managed to reach this target already in 2016, as FFO I increased by 15% from Euro 35.0m to Euro 40.1m. The FY 2017 FFO I then was at almost Euro 43m, and for 2018 S IMMO managed another very steep +43% hike to Euro 61m. We also like the improving numbers on the financing side. Cost of Funding came down to 3.12% in 2016 and even down to 2.67% in 2017 and now to only 2.28% in 2018, almost the same in 1H 2019 (2.26%). The LTV improved to 55.9% at year-end 2016 and came down after the big sale transactions in Vienna Viertel Zwei and Sofia Serdika Shopping Center to 49.3% at FY 2017. In 2018 LTV remained almost unchanged at 50.4% and slightly down to 48.8% in 1H 2019.

The Mark is a landmark office in Bucharest with 25k sqm superior space which was recently finished – will contribute c. 5m to S IMMO's rental income on an annualized basis – also a perfect bet on shrinking yields

Project development CEE

The Mark

Modern and sustainable working

- Roughly 25,500 m² of lettable area
- Final completion took place in the first quarter of 2019
- Fully occupied
- Deloitte Romania is occupying more than 8,500 m² on 8 floors
- Further tenants: Dentons, WPP, Infosys and Starbucks
- Top location
- Aiming to obtain a BREEAM certification with a level of „excellent“

Source: Analyst's presentation of 2018 results on 3 April 2019

The Berlin Leuchtenfabrik with 16k sqm was a very successful and lucrative repositioning project that will contribute 2m to future rental income – the property was bought mid 2015 being almost empty – the historic building is very charming and Berlin offers good opportunity for declining yields

Increase in value by repositioning

Property with a character in Berlin

- Leuchtenfabrik acquired in 2015
- 16,000 m² lettable area
- Acquisition price: approx. EUR 10m
- Refurbishment costs: approx. EUR 10m
- Innovative marketing concept and extensive repositioning
- Expected annual rental income after completion: EUR 2m
