Strong 1Q results are a good start to a year with significant impacts to come – pipeline rightsized to Euro 1.25bn in a worst case scenario L-shaped recovery – Buy and Euro 44.00 target price affirmed

Today, the company published the report for the first quarter of 2020 and invited to a conference call. The opening quarter was very successful and is a good start for a year that will see many impacts due to the Corona pandemic in the coming quarters. Total output hiked by more than 20% from almost Euro 72m to

more than Euro 86m. The income from fair value adjustments was at Euro 70m (1Q 2019: Euro 7m) as a result of the sale of a 40% interest in a large-scale project, "Baubergerstraße", in Munich, as part of the formed partnership with ARE. Other operating expenses significantly increased from Euro -7.9m to Euro -25.5m due to foreign exchange losses of almost Euro 18m linked to the Polish zloty and the Czech koruna. Including the increased cost of material, which are up from almost Euro -19m to more than Euro -31m, the operating profit (EBIT) more than tripled from Euro 12.5m to Euro 41.7m. The financial result improved from Euro -4.5m to Euro -2.3m, leading to an EBT of more than Euro 39m, about five-fold the amount of last year's almost Euro 8m. Tax expenses of the first quarter were significantly up at more than Euro -16m compared to last year's period due to a higher earnings contribution from Germany and tax effects from at-equity profits. Thus, the net profit after minorities quintupled from Euro 4.1m to Euro 20.5m. This translates into earnings per share of Euro 2.74 (1Q 2019: 0.55). While the first quarter was very good, the impacts of the corona pandemic are expected from the second quarter on and UBM expects substantial effects on the 2021 result while arising opportunities are not to be materialized before 2022. The firm continues to expect an impact on hotel operations of Euro 10m on EBT level, a rental income impact of Euro 3m at EBT and an unclear picture regarding the valuation effects. Overall, however, we see the company as well positioned and the management has reacted fast to the outbreak of the pandemic with strategic adaptations. The equity ratio at 1Q is at 36%, the highest level of the company so far, but is expected to somewhat come back down following the dividend payment in June and the impact of the crisis on the earnings. The LTV at 34% and the cash position of Euro about 190m are at a very comfortable level and sufficient for the coming quarters, even if no further activity in terms of sales and project financing were to be the case. Regarding the pipeline, the company did some downsizing given different recovery scenarios, resulting in a worst case (L-shape recovery) project volume of Euro 1.25bn until FY 2021. Of that, about 50% are resi, 30% hotels and 20% are offices. Furthermore, a clearer shift away from hotels to resi or office assets is in the process. Pleasing news came already earlier in May with the announcement of the strategic partnership with the government owned Austrian Real Estate GmbH (ARE), in which UBM is investing in "Eurogate", one of the largest urban development projects in Vienna, for 51% stake in 5 sub-projects, and ARE is acquiring 40% of the Baubergerstraße project in Munich. The acquired share in Eurogate is planned to contribute about Euro 250m to the firm's P&L over the next four years and offers UBM regional diversification with an exposure to a large-scale project in Austria. We are satisfied with the first quarter and the quickly taken measures of the company and confirm our target price of Euro 44.00. The share has already re-

covered a large portion of the losses following the outbreak of the pandemic, but still offers an upside of currently about 20%. Thus, we confirm our Buy rat-

ing for the share.

Founded in 1873 as "Union-Baumaterialien-Gesellschaft" the company has now an outstanding history of more than 145 years. Keep in mind, that since 1873, the firm is also listed on the Viennese stock market and thus is the oldest Austrian real estate company. After the initial focus was on the renting of construction equipment, the firm made a significant step ahead since the early Nineties where the firm started to initiate many new development projects after a 50% increase of share capital in 1991.

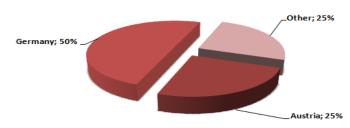

In 1992 the firm started to develop numerous lucrative projects in Eastern Europe, in particular in Poland and Czech Republic. Between 2001 and 2010 UBM entered some opportunistic marktes like France and the Netherlands with hotels. In 2014 PORR, the Vienna-based construction and development conglomerate decided to seperate its non-core real estate development activities from its construction activities with the destination to create two pure play entities and seperately listed companies. In this spirit, PIAG was used as a spin-off vehicle which held PORR's non-core real estate development activities as well as PORR's share in UBM. In a second step UBM Realitäten AG was merged with PIAG and Strauss & Partner to the "new" UBM.

The UBM Development AG acts now since 2016 as a pure-play trade developer. The high-quality development pipeline in European top metropole regions has broken the Euro 2bn threshold in mid of 2019 and stood at a record high level of Euro 2.5bn at yar-end 2019 for the next 4 years 2020 to 2023 (2018 pipeline: Euro 1.8bn). Due to the Corona pandemic, the company rightsized the pipeline. Depending on the recovery, the pipeline is now seen somewhere between euro 1.25bn and Euro 2.5bn. At the minimum level of Euro 1.25bn, the pipeline is split at about 50% residential units, about 20% office space and currently 30% hotels. From potentially 16 hotels, 7 hotels are in in current development, and from the 7 hotels 3 are already sold. The remaining 4 hotels are 1 in The Netherlands, 2 in Germany and 1 in Czech and it is quite likely that UBM will put them on its own balance for the next 1 or 2 years after completion as to sell them for an unsatisfying price.

In 2018, the numbers marked a new record year as UBM had a net profit of almost Euro 40m. 2019 was another record year with a net profit of Euro 53m. UBM confirmed the good Euro 2.20 dividend level per share given the strong own balance with a high equity ratio of 35% and a net LTV of only 34%. The confirmed dividend payment translates into a current dividend yield of about 6%.

Pipeline split as of 31 March 2020

(c. Euro 1.25bn pipeline taking a L-shaped recovery)
