Another big step to bring down the debt and Branicks is on track for the full year FFO target – we lift our target price to Euro 7.00

Today, the company released an important company news about a further big milestone in reducing the debt, namely the VIB bridge loan, and about a good FFO result to be delivered for the first half of the year.

Branicks had a remaining Euro 200m bridge loan for the VIB takeover on year-end 2023, which was rapidly reduced to Euro 160m in the first quarter 2024 and to Euro 120m at the end of the second quarter, thanks to a very good progress regarding the targeted Euro 500m to Euro 600m sales transactions in the Commercial Portfolio for 2024 to set free capital. On 1 July the company stated that it reached already far more than 50% of this target, in particular the sale of 12 logistics properties from the VIB portfolio to P3 Logistics Parks in June was helpful here.

Today Branicks reported that the bridge loan was on 15 August further reduced by a remarkable Euro 80m, to a relatively small remaining Euro 40m and that will be repaid until year-end 2024, at the latest. The second good news from today is that Branicks reported a prelim number for the half-year FFO at good Euro 19.4m, which is relatively high despite the significant asset sales in their own portfolio and not too far away from the Euro 22.4m last year on 1H level. Branicks also confirms the full year Euro 40m to Euro 55m target range for the FFO, which should profit from a relatively strong letting business in still challenging times and some additional development fees. In this context it is worth to note that the company recently reported the full refurbishment and project transfer of Frankfurt's iconic high-rise Global Tower to the new owners, the funds of JV Partners HANSAINVEST and PATRIZIA.

With the above news about the swift reduction of the bridge loan to a small remaining amount and the good news about trading transactions and letting success in recent months the equity story brightens up in our view. We know that still the market for office is not perfect at all and sluggish in a way, but there are first signs for a rising interest from investors side and a stabilization of the multiples. With regards to the logistics arm of business, Branicks exploits the better environment here to realize some sale transactions, which dilutes a bit the future cash inflow from this business unit, but remarkably helps to drive a quick financial consolidation, what is the highest priority now. In this context, the firm already announced on last Friday, 16 August, the sale of 4 retail parks to an US investment manager. These 4 assets stand for a rental income of Euro 4.3m per year and the deal brings about Euro 27m cash inflow for the firm. 3 of the 4 properties are from BBI, a subsidiary of VIB, and one stems directly from the Branicks commercial portfolio.

With many good steps towards the right direction, we now lift our target price from Euro 5.00 to Euro 7.00 (keep in mind an EPRA NTA per share around Euro 12.00). At the very low share price level below Euro 2.00, we clearly maintain our Buy recommendation to profit from a recovery of the firm's balance sheet and a recovery of the general market. The full 1H 2024 report is to be published next week, on 27 August.

Branicks (formerly DIC Asset) is a strong commercial properties player in the German market with two strong and in general more or less equally weighted pillars or businesses, which help for a very complementary income and investment structure.

In the Commercial Portfolio Branicks does on balance sheet investment for their own books, in particular office and logistics properties that offer a stable cash income as well as some value add properties which need more attention to reduce vacancy and increase the intrinsic cash flow in mid-term, in particular by repositioning or revitalization of some assets. This strategy is complemented by an intelligent cycle management to sell some properties at the right time for portfolio optimization and generating additional trading profits. The commercial portfolio has a size of about Euro 3.65bn at present.

In the second pillar, the Institutional Business, the company launches diversified real estate funds for many years, as the DIC Office Balance I was initiated in 2010 and DIC Office Balance II in 2014 and DIC Office Balance III in 2015, all with targeted AuM between Euro 300m and Euro 450m. Branicks also initiated funds outside the office topic, for instance with the DIC Retail Balance I fund, which came in September 2017 with a size of about Euro 250m or the new RLI-GEG Logistics & Light Industrial III fund with a volume of Euro 400m. The institutional business offers a great range of fees for set-up, transactions, asset and property management services for the funds, club deals and individual mandates. In addition to a broad income stream from servicing fees there are lucrative equity returns from the co-investment stakes. The assets under management in the Institutional Business steeply increased by almost 50% in 2019, from Euro 3.9bn to Euro 5.7bn, to Euro 7.6bn in 2020 and again steeply to Euro almost Euro 9.3bn in 2021 and Euro 10.25bn in 2022. At the end of 2023, the AuM in the segment amounted to Euro 9.6bn. All activities in the field of fund business (third party mandates) have been bundled under the GEG roof. Both pillars, the Commercial Portfolio and the Institutional Business, are serviced from the group's own asset and property management platform, with branches in Frankfurt, Mannheim, Düsseldorf, Cologne, Hamburg, Munich, Berlin, Stuttgart and Neuburg. The institutional business offers a lucrative income stream of management fees as well as transaction-related fees and performance fees. As of April 2024, the firm announced a stronger strategic focus on ESG and Renewables and plans to launch its first Renewable Fund with a volume of Euro 300m in the first half of 2024.

The FFO I result of 2023 stood at a level of Euro 52m and was expectedly more than halved from Euro 114m in 2022 due to the very sluggish market conditions and the respective much lower transaction volume in the institutional business segment as well as the significantly higher financing expenses. For 2024 Branicks guides a range of Euro 40m to Euro 55m for the FFO I result. After 1Q 2024 the FFO I stood at Euro 9.0m which is a good start for the full year target. This FFO result was realized with rental income from commercial portfolio and management & property fees from Institutional Business only, as there were no transaction related fees, so far.

Assets under management

in EUR billion

Commercial Portfolio **3.6**
(proprietary portfolio)

- 168 properties
- Directly held portfolio
- Recurring rental income from Core/Core Plus and Value-add assets
- Medium to long-term investment horizon
- Sales at appropriate time

9.6 Institutional Business
(third-party business)

- 183 properties
- Investment vehicles for institutional investors
- Income from structuring and managing these vehicles
- Core real estate in major cities and economically strong regions
